### **Slope-Intercept Form of a Line**

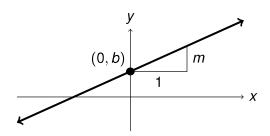

University of Minnesota

Slope-Intercept Form of a Line

### **Slope-Intercept Form**

$$m = \text{slope}$$
  $b = y$ -intercept

The graph goes through the point (0, b)

**Slope-Intercept Form of a Line** 

$$y = mx + b$$

### **Preliminaries and Objectives**

#### **Preliminaries**

- Slope
- Intercepts
- Cartesian Coordinate System
- Recursion

#### Objectives

- Given the graph of a line, write the equation of the line
- Given the slope and *y*-intercept of a line, write the equation of the line
- Given the slope-intercept equation of a line, graph the line

University of Minnesota

Slope-Intercept Form of a Line

# **Example 2**

Write the equation of a line whose slope,  $m = \frac{2}{3}$ , and whose y-intercept, b = -2

University of Minnesota

Slope-Intercept Form of a Line

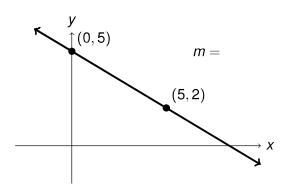

University of Minnesota

Slope-Intercept Form of a Line

# **Example 3**

### Recap

Write the equation of the line graphed below:

m = slope

b = y-intercept

#### Slope-Intercept Form of a Line

$$y = mx + b$$

University of Minnesota

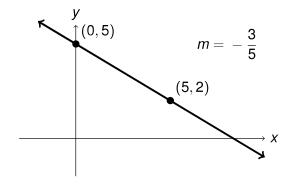

Slope-Intercept Form of a Line

University of Minnesota

Slope-Intercept Form of a Line

### **Example 3**

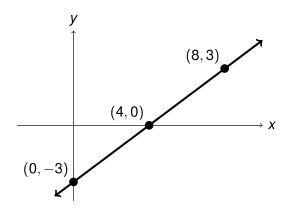

Write the equation of the line graphed below:

$$y=-\frac{3}{5}x+5$$

# **Example 4**

Graph the line  $y = \frac{3}{4}x - 3$ 

# Recap

$$m = slope$$

$$m = \text{slope}$$
  
 $b = y\text{-intercept}$ 

### Slope-Intercept Form of a Line

$$y = mx + b$$

University of Minnesota

Slope-Intercept Form of a Line
